This report provides a summary of the events and activities for 2012 under the following headings: Research, Events, Membership, Working Groups, Newsletter, Commitment to Achieve Change, Governance and Associations Memberships.

## 1. ACJRD Research

---

The ACJRD Research-Sub-Committee oversaw the following projects during 2012:

### **Best Practice, Current Difficulties, Future Needs’, ‘Tracking the needs and service provision for women ex-prisoners’**

The Association believes that quality research findings are essential to a more effective and responsive criminal justice system. To assist future research efforts, the Association wishes to explore how collaboration between criminal justice policy makers, practitioners and researchers might be further enhanced to their mutual benefit. To this end a study has been commissioned to consider what works best in conducting criminal justice research projects, what difficulties arise in terms of data, access, etc., and what actions might be taken to support efficient and effective research projects into the future. The study will involve compilation of the views of policy makers, practitioners and researchers who have recent experience of criminal justice research projects.

This study has been funded by a grant from The Children’s Act Advisory Board.

### **Tracking the needs and service provision for women ex-prisoners**

This project will identify the multiplicity of needs of women ex-prisoners as they leave prison after serving short sentences (12-24 weeks). These women have been targeted as they often leave prison before they have had the opportunity to engage with services. The aim is to identify the gaps in services available to the target group and to present the findings to the service providers with the objective of analysing how this group of ex-prisoners, who are often homeless, can have their needs met.

This project is being funded by a grant from the St Stephens Green Trust.
